1004 WEDNESDAY, March 29,

To-day's stock market presented only two features of interest. They were movements in Distilling and Cattle Feeding and Missouri Pacific. The first was more active than at any time since The Sun exposed the mismanagement of the company. The heaviest selling was by brokers identified with leading bear operators; consequently the Street inferred at first that the sales were for short account; but as the selling became more persistent and effective, suspicions that the brokers referred to had been employed to market long stock were aroused, and that view was generally held at

the close of business.

The net decline of over 3 points in the price of Distilling and Cattle Feeding naturally prowoked and, to an extent, corroborated a number of reports derogatory to the enterprise. None of them, however, could be con-firmed, and the chances are that none of them would have been credited were it not for the unfortunate experience Wall street has had with corporations controlled by Chicago speculators and their allies. The most alarming report to-day was that all of the Eastern representatives in the directory of the Distilling Company will decline to serve on its Board another year. As their presence on that Board is about the only guarantee the public has that the company will not be entirely sacrificed to the unscrupulous greed of its Western managers, it is not surprising that the report referred to produced a greater effect than all of the others circulated by the bears

Missouri Pacific betrayed no weakness until it was announced that President Clark of the Union Pacific had reconsidered his decision to retire from the service of that company to take the Presidency of the Missouri Pacific Company. The professional element instantly jumped to the conclusion that Mr. Clark had quarrelled with the dominant interest in Missouri Pacific. Another view expressed was that he had come to the conclusion that ft would be easier to manage and finance the company with which he has elected to remain

than the one whose service he had intended to enter. Excellent information is that all of these views are misleading.

Mr. Clark unquestionably had a preference for the service of the Missouri Pacific Company, but the Union Pacific Board at its meetng to-day was so unanimously in favor of retaining him as its chief executive that Mr George Gould and his associates in the management of the Missouri Pacific Company consented reductantly to the abrogation of the understanding they had with Mr. Clark. It is understood that they were influenced in

doing to chiefly by a desire to maintain abso lutely harmonious relations between the two systems. The Presidency of the Missouri Pacific Company will now probably be taken by Mr. George Gould, who is a warm personal friend of Mr. Clark's, and the operation of the road pinced in the bands of a Vice-President and general manager, who has not yet been named. This arrangement is certainly not a Lear argument against either property, since tween the two managements. Relative to some absurd reports as to the

financial condition of the Missouri Pacific Company circulated to-day, it is officially stated that the company has reduced its floating debt since Jan. 1 \$500,000 out of earnings. The remainder of that debt is held entirely by the directors, and against it the company has in its treasury the securities of branch line roads which will be used to liquidate the obligation whenever the operation can be made to adproperty, the management is confident that last because of the improvement in the phytwo years and the more satisfactory relations that have been established with competing lines. The outlook for the wheat crop in Kanare said to be all that could be desired, but it is too early yet to form any opinion relative to other staple crops.

Noteworthy net fluctuations other than those in the two stocks mentioned were ad-States Rubber, and declines in General Electrie and National Cordage. The dealings in all of these stocks, however, were very light. Sugar Refining, St. Paul, and Reading received some attention, but none of them can be described as active. The remainder of the list was neglected. In the last hour the rates for call loans were bid up, presumably for effect upon the stock market, and reports of heavy shipments of specie were revived. So far as can be learned none of the foreign bankers expects to ship gold on Saturday, and beyond that all estimates are mere conjecture.

The demand of the interior for money to make April payments has not yet materialized. nor is it likely to at this late day. On the contrary, it is to be noted that domestic exchange at Chicago is in favor of this centre. The most the break in the price of wheat at Chicago. A further decline might attract foreign buying of that cereal and thus diminish the chances of further heavy exports of gold. The management of the Chicago Board of Trade is apparently not in sympathy with efforts to hold up the price of wheat, for it has declared that an emergency exists and that all warehouses shall be classified as regular. The closing of the stock market was irregular.

Messrs. John H. Davis & Co. announced that they are authorized to receive subscriptions at par for \$800,000 of the fwenty-year 7 r cent. first mortgage gold bonds of the Minneapolis Brewing Company, organized under the laws of Minneapolis, to purchase the property and business of the Minneapolis Brewing and Malting Company, which last company was formed in July, 1890, by the consolidation of the foar principal brewing concerns in Minneapolis. The capital stock of the new company consists of \$1,500,000 and its debt of \$1,500,000 have already been taken, as well as the entire stock of the company. The proceeds of the bonds how offered will be applied to completing the purchase of the property from the company first named. An expert examination of the books and accounts shows that the net easies of the company are largely in excess of the total bonded debt. All of the surplus net earnings of the company after payment of expenses, improvements, and interest upon the bonds, shall be applied to the purchase and retirement of said bonds at a price not exceeding 119 and interest, or if not obtainable at that price to be drawn at that price and interest until one-half of the entire issue has been retired. After the retirement of said bonds at a price not exceeding 119 and interest, or if not obtainable at that price to be drawn at that price and interest until one-half of the entire issue has been retired. After the retirement of half of the issue which, it is expected, will be accompitable in about four years, \$20,000 per year of the not surplied to the network applied to the surplus of the issue has been retired. REGISTRAR; PARMERS' LOAN AND TRUST COMPANY, NEW YORK. COUNSEL:
Mesers. COBB & WHEELWRIGHT, Minneapells, Minn. AUDITORM; Mesers BARROW, WADE, GUTHRIE & CO., New York,

This company has been organized to purchase and take over as a going concern the property and business of the Minuespoils Brewing and Malting Company. which company was a consolidation in July, 1810, of the four principal brewing concerns of the city of city, one small plant excepted. Since this combination was formed an entirely new brewery has been built, which is an absolutely fireproof structure, designed and creeted under the supervision of the best brewery erchitects, and equipped with the best possible me chinery and appliances. The other plants owned by the company are also excellent in design and equip ment and advantageously located throughout the city The company supplies almost the entire trade in Minne apolis, and has an exceptionally broad and profitable The managers of the former company will remain with the Minneapolis Brewing Company, thus insuring a continuance of the same skilful management which has brought such marked success in the past. The company begins business with ample working

The net assets of the company are largely in excess of the total bonded debt. A careful appraisement of the real estate, buildings, machinery, implements thoroughly competent appraisers, whose valuation are on file with the bankers.

THE BOOKS AND ACCOUNTS HAVE THE BOOKS AND ACCOUNTS HAVE BEEN EXAMINED AND VERIFIED BY THE WELL-KNOWN PUBLIC ACCOUNTANTS, MESSRS, BARROW, WADE, GUTHRIE & CO., WHOSE CERTIFICATE CAN BE INSPECTED AT THE OFFICE OF THE BANKERS, ACCORDING TO THIS CERTIFICATE, THE NET PROFITS OF THE BUSINESS FROM ALLY, 1890. TO SEPTEMBER 8 1899. JULY, 1890, TO SEPTEMBER 8, 1892, WERE EQUAL TO AN AVERAGE ANNUAL NET PROFIT OF \$246,566,16. FOR THE 12 MONTHS EN BING SEPTEMBER 8, 1808, THE NET EARNINGS WERE 8257,200,78, THE ASSETS OF THE COM-PANY, CONSISTING OF REAL ESTATE, BUILDINGS, MACHINERY, PLANT, CASKS, &c., BILLS AND ACCOUNTS RECEIVABLE, STOCK OF BEER, MA-TERIAL ON HAND, AND CASH ON SEP-TEMBER 3 LAST, WERE \$1,792,000.40, IN ADDITION TO WHICH THE NEW CORPORATION WILL TAKE OVER THE UNDIVIDED PROFITS EARNED BE-TWEEN SEPTEMBER 8, 1892, AND APRIL 1, 1893. THESE ASSETS ARE EXCLUSIVE OP GOOD WILL.

BOND ISSUE.

The BONDS of this Company will be dated April 1 1803, and payable in gold in twenty years from that date, except as retired according to the provisions named below. Interest will be payable October 1 and secured by a mortgage or deed of trust to the Manhat tan Trust Company of New York City, as Trustee. covering and constituting a first lien upon all the acquired by said Company.

The following unusual and important provisions will be embraced in said mortgage or deed of trust, and no dividends can be declared upon the Capital Stock of the Company until these provisions as to retirement of the bonds shall have been fully complied with:

payment of expenses, improvements | APRIL 6, at 3 o'clock P. M., at the office of

and interest upon the bonds, shall be applied to the purchase and retirement of said bonds at the best price obtainable in the open market not exceeding 110 and interest; or, failing to thus obtain them by purchase, to be drawn by lot at the rate of 110 and interest, until ene-half of the entire issue, or \$750,000, shall have been thus retired and cancelled.

SECOND-After \$750,000 of the bonds have been thus retired and cancelled (which it is expected will be accomplished in about four years) the amount of \$25,000 per year, out of the surplus net earnings, shall be similarly applied to the retirement of bonds at not exceeding 110 and interest.

By these novel and most advantageous provisions the bondholder who desires to sell, or whose bonds happen to be drawn for redemption, is ussured of a large premium, in addition to his tull seven per cent. Interest up to the day of sale or drawing, while the intrinsic value of all bonds remaining outstanding increases year by year through the reduction of the total bonded debt.

the net earnings for the year ending September, 1892, were the equivalent of interest at 7 per cent, upon the \$1,500,000 bonds, and a surplus of \$152,000 available for the retirement of bonds in accordance with the provisions above specified. It is safe to say that the fund available for the annual redemption of bonds will be still larger in the future.

All of the stock of the Company and \$700,000 of the bonds have already been taken. The proceeds of the bonds offered for sale will be applied to completing the purchase of the property from the fermer company.

LARS of these bonds are now offered for subscription at par, payable 20 per cent, on application and 80 per cent, on April 10, 1893. Receipts will be issued for all amounts paid, and will be exchanged for bonds upon making the final payment, or as soon thereafter as the said bonds are ready for delivery. If the bonds are not engraved and ready for delivery by said date, full-paid negotiable Trust Company receipts will be issued, exchangeable for the engraved bonds. If the whole amount applied for by any applicant is not allotted, the surplus amount paid on application will be applied to the sum due under allot ment. The right is reserved to reject or reduce any application and to give preference in the allotment to advance subscribers. The amount paid upon application will be returned if the amplication will be returned if the amplication will be returned if the amplication.

FIRST-That all of the surplus | The subscription lists will be opened on MONDAY, net earnings of the Company, after APRIL 3, and closed on or before THURSDAY,
